

Mobile Examiners Company

Mission Statement

Mobile Examiners Company is a service company that can meet all your underwriting requirements to complete your client's insurance applications. Our belief is that we become an extension of your business. We are grateful that you would give us this opportunity to meet with your clients. Our goal is to be on time, make your clients feel comfortable during the exam process and complete the exam in a timely manner. Let Mobile Examiners be your examining company.

We are available to complete an exam for any insurance company. We have contracts with the larger paramed services, to be able to bill the exam through the proper approved paramed companies. Therefore if you sell for one company or many we can complete your medical requirements.
